Description of the project/purchase (include R-values)

How does the purchase/project conserve electrical energy or improve electrical energy efficiency?

Submitted by: _____

(signature)

**See Reverse
Program restrictions**

1. Insulation must be for permanent use within the service area of Coles-Moultrie Electric Cooperative.
2. Material or Service may not be resold or otherwise transfer ownership from the member applying for the incentive. The Cooperative reserves the right to delay payment up to 180 days from the date of application to determine eligibility.
3. A member may apply & receive only one incentive per calendar year.
4. Incentives may not be combined with other rebates from the Cooperative.
5. Incentives will not exceed \$500.00, nor be more than 25% of the actual cost of purchase and installation, or completion of the project. Commercial accounts may also qualify.
6. The member must provide itemized copies of invoices, sales receipts, etc. with the application. Extended warranties, sales tax, delivery or disposal fees will not qualify for a incentive.
7. Projects or installations in mobile homes will not qualify unless the mobile home is a permanent residence of the member (wheels and axles removed with the mobile home resting on a permanent foundation).
8. Final determination of a purchase or project to qualify for a rebate will be based solely on the best judgment of the personnel employed by the Cooperative.
9. The program will terminate December 31, 2019 or whenever allocated funds have been depleted, whichever may occur the earliest.
10. Incentives will be determined on a first-come, first-qualified basis.
11. The Cooperative, at its sole discretion, may apply standards as set forth in the *Certified Comfort Home* manual, or other reasonable standards as may be available from time to time, to determine the eligibility of a project or purchase.
