Your Touchstone Energy® Cooperative 

Unclaimed Capital Credits

We are devoting most of this issue to Unclaimed Capital Credits for 1980-1982. If your name or the name of a relative is listed on pages 20A-20H, call us toll free at 888-661-2632. **Jennifer Carter-Alvis** Our cooperative operates at cost and allocates excess revenue or margins back to our members in the form of capital credits.

Monthly Board Meeting Minutes can be viewed on our website: cmec.coop

Energy Efficiency Tip of the Month

This spring, consider using a rain barrel to save energy. Rain barrels capture rainwater from a roof that can be used later for watering your lawn, garden or indoor plants.

Mark Your Calendars

Join us for our 81st Annual Meeting on Friday, June 19, 2020 at Peterson Park, Mattoon. Watch for more details in coming weeks and be sure to follow us on Facebook.

5 STEPS FOR SAFE DIGGING

Working on an outdoor project? Always call 8-1-1 first, because you never know what's below. Here are five easy steps for safe digging:

Source: call811.com

1. NOTIFY

Call 8-1-1 or make a request online two to three days before you start.

illinois1call.com

2. WAIT

Wait two to three days for a response to your request. Affected utilities will send a locator to mark any underground utility lines.

3. CONFIRM

Confirm that all affected utilities have responded by comparing the markers to the list of utilities the 8-1-1 call center notified.

4. RESPECT

Respect the markers provided by the affected utilities. They are your guide for the duration of your project.

5. DIG CAREFULLY

If you can't avoid digging near the markers (within 18-24 inches on all sides, depending on state laws), consider moving your project.
